

When listing a name on Google/Find a Grave, not all of the names immediately appear but an easier way to get in is possible.

The easiest way to do this is as follows:

Go into Google and string "Find a Grave" . If that does not work

- 1) Enter <https://www.findagrave.com/memorial>
- 2) Go to "Memorial ID". Then head to "More search options".
- 3) Insert the memorial number listed below.

If that fails, then try entering the exact wording of the site title.
